The server tells you, "hope you enjoyed the fresh fruit taste". This cruise ship always uses Yum Drops® flavoring to enhance the taste for their first class passengers.

One of the things you really noticed was that the lemon tasted like citrus, but had just a subtle sweetness to it. **Stevia is all natural and virtually calorie free** and much stronger than table sugar. stevia is a healthy and safe alternative for Diabetics. It is an all natural organic herb product. It contains NO saccharin, aspartame, fructose, sugar, F.O.S. maltodextrin or artificial sweeteners. That's why it appeals to so many people, and why beverage companies are using it now. We use only *gras* which the FDA describes as "generally regarded as safe") stevia products.

There are 40 servings for each of the three flavors in our 1/4 oz "Flavor Packs" and 75 servings in each of the 1/2 oz bottles for the individual flavors. That means pennies a serving.

**(gras** stevia) means generally regarded as safe. our products use only gras stevia. We are not required to list this formula as a dietary supplement.

Our first port of call takes us to popularity and trends in wellness and good health.

# The "Flavoring Revolution" and Trends in Wellness

So, what exactly do we mean when we say- we are [e]volutionaries leading the "Flavoring Revolution", by formulating and blending the finest proprietary flavoring additives and concentrates. [e]volutionaries are creative people that manage at the edge where evolution and revolution converge. Sound complicated? It's how we know what's in, what's not and what's hot!!!

u  
to flavors we call "Classics", along with the up and coming trends we call "Nuvo". We look at the edge of these two profiles and systematically manage the space in between the edges we like to call "Mainstream". We manage and develop flavor trends.

The pattern in some of our flavoring choices were chosen because of the their popularity, great tastes and trends towards wellness and good health; acai is one the most popular antioxidant today, a few others that trend to good health includes cranberry and pomegranate and citrus to mention a few. We make no nutritional claims for our products.

A flavor profile lends itself to a particular sensation related to a wellness area. For example, citrus flavors are well suited to the experience of revitalization, vitality, energy claims, and similar findings. Flavors such as pomegranate have also gained in popularity due to their reported health benefits as well.

Yum Drops® makes no claims to the nutrient value of its products. We are providing this information based on its popularity and on conventional wisdom that is plentiful. The real wellness value comes from wanting to drink more water because it tastes great.

Flavor	Wellness Association
Cranberry	Antioxidants, heart health, longevity, detox
Acai	Antioxidants, longevity, immunity
Blueberry	Antioxidants ,longevity, heart health

Are you ready now to start writing that next chapter, the one opportunity that brings in extra income while you continue to work!

Whether you are looking to get out of that dead end job, or maybe just make a little extra cash, selling Yum Drops® flavoring is the right choice for you.

Our generous compensation plan is designed to let you get started and earn "**income quickly**", simply by sharing and selling the products with others.

There are two ways you can earn more money and that means even more income. As you systematically grow with us as a Sales Rep and build your business, you can grow to the next level and become a Sales Director and grow your own **Sales Team!** As a Sales Director you can sponsor up to two Sales Reps that make up your total Sales Team. This is not an MLM scheme and your opportunity to sponsor Sales Reps is limited to only two. That means you can **only sponsor two sales reps**. This opportunity is really about selling, not recruiting. Each Sales Rep that you sponsor can also grow their sales volume to the Sales Director level and also sponsor two Sales reps. But Sales Directors can only earn commissions from two sponsored Sales Reps and no more.

Get paid each month based on previous months sales that gets credited right on your own Pay Pal Account or by check!

***How much fun is it earning income as a Sales Director and reaping the rewards from two Sales Rep of you sponsor!***

***As a Sales Director, you can purchase products wholesale (not required). You can make even more money that way.***

u

## Generous Compensation Plan- *Two Levels of Income*

### ***There are two ways to earn more money!***

**Sales Reps-** Here you earn a 100% of the commissions from sales on any of our products. Our commission plan pays \$1.00 on every Flavor Pack bought, or reordered from your customers online and the same on our 1/2 oz full flavor blends. Based on our retail pricing, our commission plan is very generous; as much as 20%.

You are required to maintain a quarterly (12 weeks) commission volume of \$50. That means only having to sell 4 bottles or flavor packs purchased online every week, or 4 1/2 oz bottles every week. We have some customers that buy that much every month.

You are not required to buy any products for your own use each month!!!

As your sales volume grows to \$250 a quarter, about 20 1/2 oz bottles or 20 flavor packs a week, you grow to level 2- Sales Director status. Here you are at the top of the compensation plan; like having the top suite on a cruise ship.

**Sales Director-** here you get to sponsor two Sales Reps. You continue to earn 100% of your earned commissions on the sales that you make and you make residual income on your sales team at the rate of 50% of the level of a Sales Rep; or \$.50 cents a Flavor Pack or 1/2 oz bottle for every sale they make online. Sales Directors need to maintain a quarterly income level of \$250 each quarter from online sales to remain active (20 bottles or flavor packs a week). Remember, your sales team can never consist of more than two Sales reps. If they do not maintain minimum levels you can replace them when they become inactive. Just like you, they can reach Sales Director levels but you cannot earn income from your sponsors sales team.

***Please remember, our products have high consumption rates and customers will be ordering frequently.***

## The Future, You, Us and Yum Drops®

**(Mike Snitka-President)**

You've come back to port where all great cruises and voyages end. Hopefully the journey was a pleasant one, and enlightening for you. We want to share a few of our own personal thoughts before we end the voyage and the cruise ship story line.

Do you know why so many people are afraid of the future? It's fear of the unknown. Take a look at the stock market and the economy, and is it any wonder why there is concern for the future.

This income opportunity should appeal to a wide range of people; housewives, single mothers, retirees, young and old. We are all living today in what I call a **"fractional economy"**. Our 401 K is now a 201-K, our net worth is a fraction of what it used to be and our monthly income on investments is shrinking and others are losing their income all together. Now, you have a choice and can help yourself.

A little more income can help offset the economics of today's fractional economy. We want people who are conscientious, want on their terms and conditions. 7

This is a legitimate product offering and compensation plan. This is not a scheme or mlm co. Sure, you can sponsor two Sales Reps on your team under this plan once you qualify, but the plan is not about recruiting. It's about selling products. We promote an entrepreneurial culture with a ground floor opportunity that lets everyone earn as more money with more effort.

"I had 450+ employees in my last company, before I sold it. People enjoyed working for me and they made a great living in the process. For me this business is more about using my skills sets, my passion for Entrepreneurship and to provide an income model where you can earn extra money".

For Mike, it's a chance to diversify and to grow another business in his area of expertise, while using his skills. Mike knows the future in flavoring and trends and wants to grow professionally with this new business.

**(George Napoli- Marketing Director)**

## Do's, Don'ts and Things- *At a Glance*

The core of your marketing campaign is centered around using, sharing sampling and selling the products with people you know, people you've just met, friends, family, neighbors and associates. Giving sample products away is always good business if it leads to an order, but that is not required by you.

Remember, Yum Drops® is a very visible product, the more you use it, the more buzz you create about it.

All of our products come with tamper proof safety seals. Never sell any products that do not have this safety seal attached.

**Never just put a flavor drop in someone's beverage** without first asking their permission. Then we always recommend, putting one in your beverage and then tasting it. It first before you share the product with people. Then it's the right time for you to share with prospective customers. Always mention all natural flavorings, 0 carbs, 0 calories, 0 fat. The product is fun, tastes great and is easy to use, easy to carry and best of all, only pennies a serving.
